ANOTHER ENOCH ARDEN.

An Ohio Man Returns After Nine Years' Absence, to Find His Wife Married to Another.

From the Barnesville Enterprise

Truth is always stranger than fiction, but we can only be made to believe it by startling cases like this. Tennyson has immortalized "Enoch Arden," but this story of William G. Raines, while it has all the pathetic features of the poem, surpasses it in thrilling incidents and adventures. Ten years ago Mr. Raines was a resident of our neighboring village of Hendrysburg, where he followed the occupation of a carpenter. He was married and had one child but thinking that he could better his fortunes, he left his family and sought employment in the East, expecting to return in a few months. During his absence he was engaged by his uncle to make a nine months' cruise to Calcutta in a merchant vessel, via Good Hope. He wrote an affectionate letter to his wife, inclosing $200, informing her of his intended voyage, and expressing the hope that upon his return they would be able to live happily together. The vessel sailed and while in mid ocean another letter was sent to his wife. After that silence and oblivion. No word came from the lost man, and it was believed that the vessel had gone down with all on board. After waiting three years, and hoping against hope, Mrs. Raines at last concluded that her husband had found a watery grave, and yielding to the solicitations of a new lover, she abandoned her widow's weeds and once more became a wife, marrying a Mr. Kyle, who is now a contractor on the National road near St. Clairsville.

The third act opens with the unexpected return of Mr. Raines. The vessel was really wrecked on the west coast of Africa, north of Cape Town. Mr. Raines and his uncle, with four other men, succeeded in reaching shore in a boat, but were soon after captured by the natives. The prisoners were marched 600 miles into the interior. Each tribe took one of the men and kept him as a curiosity. Raines was divested of his clothing while on exhibition, and visitors came hundreds of miles to see the wonderful white man. He was the special protege of the King, and was regarded with affection by the whole tribe. But the prisoner pined for freedom and hoped that far beyond the burning sands and the rolling billows he might find again his wife and child. Inspired by these thoughts, about a year ago he made a desperate attempt for liberty, and escaping from the tribe he managed after many hardships to reach Cape Town, where he engaged as a sailor and three weeks ago landed at San Francisco, and immediately started for Ohio. He arrived at Caldwell, and learned for the first time that his wife had married three years after his supposed death. Unlike Enoch, he did not decide

Never to tell her, never let her know

but with the honor of a true man which even a life of six years among cannibals could not destroy, he proposes to let her decide which of the two men she will live with in the future. Legally Mrs. Kyle is the wife of Mr. Raines, but, of course, she was justified in her second marriage, and Mr. Raines sensibly concludes that no man has a right to rise from the dead, as it were, and disturb relationships that were contracted in good faith. He will let the woman choose between them and abide by her decision.

How doth the busy fly
Improve each day that passes
Without, however, bettering
The butter and molasses?
How clinging are his feet
At morn when we're reposing,
How well his mission he fulfills
By keeping us from dozing!
The devil's commissary he,
And zealots just comparing,
While other merely tempt to be
Just temperance worthies.

Little Johnny is visiting his grandfather. This is an extract from a letter to his mother. Potato bugs is plenty, an I enjoy em very much cause they makes grandfather swear, an every time he bites over he spills his false teeth, an he always forgets where he spills em an he hires us to scout em out. So you see huntin's good here. He pays us in pigs, an fore the season's over I think he'll have coal to start a swine shop. Tell Sam Jenkins 'cause it'll make him hoppin mad to know me beat him such a hummer. *Philadelphia Press*

SANFORD'S RADICAL CURE For CATARRH
INSTANTLY RELIEVES.

8,000 FEET ABOVE THE SEA.

The following testimonials are from Messrs. J. C. Bosworth & Co., Denver, Col., large and influential druggists. They report unprecedentedly large sales and universal satisfaction. No other medicine is so alarmingly prevalent in that region as they speak of the following gentlemen as among their best citizens:

SORELY AFFLICTED.

J. C. Bosworth & Co., Denver, [illegible]
Prompted by a fellow feeling [illegible] with Catarrh, I wish to add my testimony to that of SANFORD'S RADICAL CURE. For [illegible] I have been sorely afflicted with that [illegible] for four years, and have tried every [illegible] without avail, until I bought one bottle of SANFORD'S RADICAL CURE from you, which gave me almost instant relief. It being a constitutional as well as a local remedy, I believe it to be all that is claimed for it. A Radical Cure for Catarrh.
Very truly yours, WM. AMSTUTZ
Denver, Sept. 26, 1877. with Jenison, Bliss & Co.

GREATLY AFFLICTED.

Messrs. J. C. Bosworth & Co., Denver, Gentlemen:—I take pleasure in recommending SANFORD'S RADICAL CURE FOR CATARRH to all who are afflicted with this disease. I was greatly afflicted with it for a long time, and tried in vain two bottles of the above [illegible]. About a year afterwards I was again taken with Catarrh quite severely, and immediately sent for another bottle, which have [illegible] me all right, giving me relief from the first dose. I am confident that [illegible] may by will do all that it is claimed for it, and more too. Wishing you success in its introduction, I am
Very truly yours,

ANOTHER ENOCH ARDEN.
An Ohio Man Returns After Nine Years' Absence, to Find His Wife Married to Another.

From the Harmonsville Enterprise

Truth is always stranger than fiction, but we can only be made to believe it by startling cases like this. Tennyson has immortalized "Enoch Arden," but this story of William G. Raines, while it has all the pathetic features of the poem, surpasses it in thrilling incidents and adventures. Ten years ago Mr. Raines was a resident of our neighboring village of Hendrysburg, where he followed the occupation of a carpenter. He was married and had one child but thinking that he could better his fortunes, he left his family and sought employment in the East, expecting to return in a few months. During his absence he was engaged by his uncle to make a nine months' cruise to Calcutta in a merchant vessel, via Good Hope. He wrote an affectionate letter to his wife, inclosing $200, informing her of his intended voyage, and expressing the hope that upon his return they would be able to live happily together. The vessel sailed and while in mid ocean another letter was sent to his wife. After that silence and oblivion. No word came from the lost man, and it was believed that the vessel had gone down with all on board. After waiting three years, and hoping against hope, Mrs. Raines at last concluded that her husband had found a watery grave, and yielding to the solicitations of a new lover, she abandoned her widow's weeds and once more became a wife, marrying a Mr. Kyle, who is now a contractor on the National road near St. Clairsville.

The third act opens with the unexpected return of Mr. Raines. The vessel was really wrecked on the west coast of Africa, north of Cape Town. Mr. Raines and his uncle, with four other men, succeeded in reaching shore in a boat, but were soon after captured by the natives. The prisoners were marched 600 miles into the interior. Each tribe took one of the men and kept him as a curiosity. Raines was divested of his clothing while on exhibition, and visitors came hundreds of miles to see the wonderful white man. He was the special protege of the King, and was regarded with affection by the whole tribe. But the prisoner pined for freedom and hoped that far beyond the burning sands and the rolling billows he might find again his wife and child. Inspired by these thoughts, about a year ago he made a desperate attempt for liberty, and escaping from the tribe he managed after many hardships to reach Cape Town, where he engaged as a sailor and three weeks ago landed at San Francisco, and immediately started for Ohio. He arrived at Caldwell, and learned for the first time that his wife had married three years after his supposed death. Unlike Enoch, he did not decide.

Never to let them know her know but with the honor of a true man which even a life of six years among cannibals could not destroy, he proposes to let her decide which of the two men she will live with in the future. Legally Mrs. Kyle is the wife of Mr. Raines, but, of course, she was justified in her second marriage, and Mr. Raines sensibly concludes that no man has a right to rise from the dead, as it were, and disturb relationships that were contracted in good faith. He will let the woman choose between them and abide by her decision.

How doth the busy fly
Improve each day that passes
Without, however, bettering
The butter and molasses?
How clinging are his feet
At morn when work is reporting
How well his mason he fulfills
By keeping us from dozing!
The devil's emissary he
And zealously just comparing
While odier merely employed he
Just keeping on wasting

SANFORD'S
RADICAL CURE
For CATARRH
INSTANTLY RELIEVES.

8,000 FEET ABOVE THE SEA.

The following testimonials are from Messrs. J. Howe Swan & Co., Denver, Col., large and influential druggists. They report unprecedentedly large sales and universal satisfaction. No other case is so alarmingly prevalent in that region as they speak of the following gentlemen as among their best citizens:

SORELY AFFLICTED.

J. O. Dorcorth & Co., Denver, Col.:
Tormented by a fellow feeling for all afflicted with Catarrh, I wish to say that the use of SANFORD'S RADICAL CURE has relieved me of what I have been sorely afflicted with this [illegible] for four years, and has effected a permanent cure in the shortest time, without any of the disagreeable symptoms attendant upon all other remedies. I believe it to be all that is claimed for it as a Radical Cure for Catarrh.
Very truly yours, WM. ARMITAGE
Denver, Sept. 25, 1877. with Jenson, Bliss & Co.

GREATLY AFFLICTED.

Messrs. J. O. Dorcorth & Co., Denver, Col.: Gentlemen.—I take pleasure in recommending SANFORD'S RADICAL CURE FOR CATARRH to all who are afflicted with that disease. I was greatly afflicted with it for a long time, and tried in vain every remedy that came to my notice. About a year ago I was induced to try a bottle of your Radical Cure, and was so much benefited by it that I was again taken with the Catarrh, after having used but one bottle, which I immediately sent for, and in the course of [illegible] was entirely free from the disease, and am now happy to say that I am entirely well. I am confident that [illegible] will do all that is claimed for it, and more too. Wishing you success in the introduction, I am

REPUBLICAN COUNTY CONVENTION.

The Republican electors of the several Townships of Macon county are requested to elect delegates to a county convention to be held at the court house, on

Saturday, July 27th, 1878,

at 1 o'clock P. M., for the following purposes: To nominate candidates for Sheriff and Coroner, to be voted for at the November election, to select eight delegates to represent this county in the 30th Representative Convention hereafter to be called, and to transact such other business as may properly come before the convention. The basis of representation will be as follows: One delegate for each fifty and fractional majorities cast for Republican Presidential Electors in 1876. Under this basis the several townships and voting districts will be entitled to the following number of delegates respectively:

Decatur 1st District, 8; 2d Dist., 6; 3rd Dist., 6; 4th Dist., 4; Austin, 2; Blue Mound, 2; Friends Creek, 2; Hickory, 2; Harristown, 3; Illini, 2; Long Creek, 2; Mount, 1; Maroa, 5; Mt. Zion, 2; Macon, 1; Niantic, 2; Oakley, 2; Pleasant View, 2; Wheatland, 2; Whitmore, 1; total 61.

By order of the County Central Committee
JNO. A. BARNES, Chairman.

THIS is no time for heated political discussions. Let's have a rest until cooler weather. Time enough for all strictly necessary conflicts after the mercury stops cavorting around among the nineties.

I MOVE that we renominate Hayes—and Field Marshal Halstead, of the Cincinnati *Commercial* but though that was some time ago, the motion has not yet received a second and the mover is on the point of swearing that he meant Grant all the time.

PROF. TICE says it will get hotter and hotter, until to-morrow, which will be the hottest day for a hundred years. Can't somebody choke Tice? Anybody who prophesies such things deserves to be *anathema maranatha*, whether he be a true or a false prophet. The mere suggestion of such a possibility ought to damn—age any man's reputation as a lover of humanity.

IT is very apparent that the Grant fever is spreading. George William Curtis and Joe Medill are both getting ready to surrender to its attack, and when these eminent apostles of all that is "good and true and beautiful" in politics yield to the inevitable logic of events the country may safely lay to its soul the flattering unction that the worst is over.

THERE can be no doubt as to the fact that Samuel Shelley is the first choice of the genuine greenbackers of Macon county for Congress, but Col. Taylor and Charlie Aiken and Squire Hopson are doing their best to defeat his nomination. 'Twas ever thus. the fugelmen are always trying to override the will of the people, in order to subserve their own selfish purposes.

THAT was a pretty sly trick that the managers of the Greenback convention attempted to play on Sam Shelley. They wanted to send a single delegate to the Toledo convention, who could be depended on to cast the vote of Macon county in favor of Malden Jones. But Shelley blocked their little game and secured a postponement of the convention until the masses of the party—who do not favor Jones—can be heard from.

IT is a nice thing to be a member of a congressional committee these hot days. The Potter committee adjourned on Saturday to meet at Atlantic City, N. J., on the 23d inst. At that fashionable seaside resort, while enjoying the delights of surf bathing and driving on the beach at the expense of the toiling and perspiring tax payers, the committee can go on in the search for frauds, and in their hunt for Democratic campaign thunder. Oh, its nice.

THOMAS EWING SHERMAN, son of Gen. W. T. Sherman, who has gone to England to become a Jesuit priest, wrote to a relative in St. Louis just before his departure, saying that the step he was about to take was without the approval, sanction or consent of his father, and against his wishes. The young man says that he assumes the whole responsibility of his course, as upon himself rested the duty and burden of choosing a path in life.

"GRANT IS our man for 1880," said an enthusiastic Republican to a distressed and discouraged looking Democrat on Saturday, "and he's a—" but the sentence was left unfinished, for the Democrat turned black in the face and fell senseless to the sidewalk—"Sun struck, by thunder," said the innocent Republican, and so the coroner's verdict read, but truth compels us to state that the coroner's verdict was a gross perversion of the facts in the case. Just say "Grant" to the average Democrat, and, no matter how the thermometer stands, he gets "hotter'n a wolf." Oh no, it wasn't sunstroke killed that Democrat! It was the mere shadow of a coming event.

A Plea for Ice Water.

A large number of newspapers, for the want of something better to do, are running crusades against ice water. It is said to crack the enamel on teeth, impair digestion, and lay the foundation for cancer and catarrh of the stomach. So far as the damage to the teeth is concerned, it may be said that warm food and hot drinks are more potent destroyers than ice. The Esquimaux eat cold victuals and drink cold water, and they are celebrated for the soundness of their grinders. It is observed that when cattle are fed on warm mashes their teeth decay with great rapidity. It is the sudden transition from heat to cold which does the mischief. An immoderate use of ice water is deleterious, and so is almost anything else taken into the stomach without moderation. But if ice water does destroy human life it should not be discouraged. The country is overpopulated. Wealthy people are generally addicted to the use of it. As they pass away abundant room is made for the Communists and in this way social discord and a third term of Grant may be averted. When we consider the fact that ice-water and two-thirds of the things that constitute our food and drink are but agents of human destruction, it is really a wonder that we live from one election to another.

Heat in London.

From the London Standard, June 29.

For the last few days the heat, not in London only but all over the country, has been intense. On Wednesday last the thermometer in the Metropolitan District stood at 84 degrees in the shade at 8 o'clock in the morning, and two hours later had risen to 86 degrees. At Birmingham it attained 90 degrees, the highest temperature that has been known since June of 1858, when it actually stood for the greater part of the day at 92 degrees in the shade. Night has done but little to cool the atmosphere, and the severity of the change has been as remarkable as its suddenness. Only a few days ago we were visited with persistent rainfall, cold, bleak winds, and a chilly atmosphere. We are now, in London more especially, laboring under a heat fully as oppressive as that of the tropics, and in many respects resembling it. Kingston, in Jamaica, is seldom very much hotter than was London on Wednesday last, while Kingston has the advantage of a cool breeze from the sea when the tide comes in and a cool breeze from the hills when it goes out.

THE New Orleans *Democrat*, the day before Jeff Davis delivered his address at Mississippi City, said:

The man who has represented the noble idea of opposition to sectional and Federal centralization still is master of all his faculties, and full of the principle that made him great and that yet will save the country. Jefferson Davis will speak to-morrow at Mississippi City, in answer to a deserved compliment which will be paid him by the Louisiana Division of the Army of Tennessee. All of the young men of the city ought to hear him. There is a lesson and an example for them in every word that will be spoken by the great man, and there are hallowed teachings in his very presence. In this country and age, in the present crisis of politics, where demoralization is running rut, and the young men of the country have scarcely any standard to follow and no glaring beacon light to glide them, a word of advice from such a man as Jefferson Davis is precious, both as a lesson in practical politics and as a teaching in the highest standard of morality, which must underlie every true Republican theory.

He declared to the young men that secession was right and his advice was precious. Is he a [representative Southern man?

THE Cleveland *Leader* tells how neatly Beaconsfield bamboozled that great International Congress, thus:

Beaconsfield sat at the table of the Congress in pretended consultation with the representatives of other Powers, having a private treaty with Russia in one pocket and a private treaty with Turkey in the other. When the last days of the Congress came, and the Batoum matter was settled, out came the concealed treaty with Turkey. The Congress was astounded. Russia wants time to think about all this. France is indignant. Cyprus is taken into possession by England, who is bound there by no go to war at any time it may be necessary to protect the immense and barbarous population of Turkey in Asia. The English people hardly know yet what to think. They are proud that Beaconsfield has outwitted Gortschakoff for once, but they do not know what the cost of the game will be, and they love to count the cost.

THE HEATED TERM.

Remarkable Number of Sunstrokes.

LONDON, July 13.—The government appears to be busy with the details of military and civil establishments in Cyprus. Papers announce the appointment of postmasters and other officials. Gen. Sir Garnet Wolsley has already under consideration a scheme of a financial company for introducing railways. Arrangements are also being made for a submarine cable to Alexandria, which will give direct communication with England. Among other schemes brought to the surface by the English occupation of Cyprus is the Euphrates Valley Railroad. The Duke of Sutherland and others are in active communication with the government on the subject and it is stated if within a reasonable time it appears that the Anglo-Turkish convention is successful it is possible the country will be asked to give a guarantee for the proposed railway.

LONDON, July 13.—At yesterday's sitting of the congress Bismarck moved that a supplementary conference be held next autumn, either at Constantinople or Berlin, but Lord Salisbury declared his inability to accede to any proposal interfering with the immediate submission of the papers to the English Parliament, and the motion was thrown out.

BERLIN, July 13.—The congress held its last sitting to day, all plenipotentiary and other members in full dress at the opening. Proceedings begun at 2:30 and ended at 4. The treaty was signed by all the plenipotentiaries alphabetically. The secretaries attended previously at 1 o'clock in the afternoon to affix plenipotentiary seals to each copy. After signature Count Andrassy warmly eulogized Bismarck's presidency. Bismarck thanked the plenipotentiaries for their indulgence, and the proceedings terminated with a grand court dinner this evening at Whitehall Palace. The Crown Prince Frederick William congratulated the illustrious statesmen upon the realization of his hopes that the blessing of peace would crown their efforts. He declared that Germany's co-operation could be counted on for all that tends to secure and preserve this great benefit. He proposed the health of the plenipotentiaries of the sovereigns of the governments who this memorable day signed the treaty of Berlin. The only absentees from the banquet were Lord Beaconsfield and Prince Gortschakoff. The German semi-official press publish long peans, rejoicing and triumphing in the signing of the treaty of peace.

NEW YORK, July 14.—Messrs. Dun, Barlow & Co., in their last circular, report the number of business failures in the United States for the past six months of the present year at 5,825 against 4,749 for the same period in 1877. The liabilities are stated at $130,000,000 as against $99,000,000 for the same period last year. The circular says: "These figures are of very grave import if taken as an indication of the state of trade, for never before, in an equal period of the history of the country, have business misfortunes been so numerous, or the aggregate loss by bad debts so great." The reasons given for this exhibit are the unusually open winter, the discussion in and out of congress of the silver bill, the probability of a change in the tariff laws, and the steady decline in the prices of merchandise. These circumstances being only temporary, it is argued that it would be unfair to regard the statement as an index to the real or permanent condition of trade, and that general indications point to a better condition of things in the future.

FREEPORT, ILL., July 13. The recent rains have done much damage along the line of the Illinois Central Railway between Freeport and Dubuque. On account of a wash out four or five miles beyond Scales Mound, this side of Galena, several miles in extent, taking away a number of culverts and a tank house, railroad travel is interrupted, and will be for two or three days.

Much hay in the fields was carried away. One man, near Scales Mound, is said to have lost 10 tons, which had been cured and stacked.

The Pecatonica river in the vicinity of this city has attained a size never before known perhaps at this season of the year.

Mail matter for the Northwestern section of Iowa will, on account of the railroad interruption, be somewhat delayed. So, too, will Galena suffer the same inconvenience, as the mail will be taken first to Dubuque by way of the Clinton and Dubuque railroad.

The road will soon be repaired, and probably trains will be able to get through to Dubuque by Tuesday next.

WASHINGTON, June 13.—A lady living in England has made application for three valuable swords, which were formerly the property of General Twiggs, but which were captured by General Butler when he entered New Orleans during the war. These swords were sent to President Lincoln by General Butler and deposited by his successor. President Johnson, in the vaults of the Treasury Department for safe-keeping. They are valued at $35,000. One of them was presented to General Twiggs by Congress, for bravery during the Mexican war. The scabbard is of pure gold, brilliantly set with diamonds. When General Twiggs ran away from New Orleans, at the approach of the Union troops, he left these swords behind, but sent a letter to a young lady friend, saying that he had decided to give them to her, and for her to obtain them. Soon afterwards General Twiggs died, and the lady, who now lives in England, claims that the swords are her property, and has made a formal application to the Secretary of the Treasury for them. The request and claim are now being considered.

The Democratic Congressional Committee has not yet made any large preparations for the coming canvass this Fall. Members who have heretofore subscribed liberally to the general fund state that their means will be applied locally this year, in aiding to return Representatives from the close districts, which they regard as a more effective mode of campaigning than by the circulation of political documents. Members of the committee say that the hard times make it difficult to collect any money for political purposes.

LONDON, July 13.—The treaty of peace contains fifty-eight articles. The *Times* version, declared at Berlin as unauthentic, contains fifty seven articles, and makes no mention of two important questions, namely: Dardanelles and Armenia. It is probably an early copy, obtained before final revision. Its first twelve articles relate to Bulgaria, which is constituted as an autonomic tributary principality under the suzerainty of the Sultan with Christian government and national militia. These articles further regulate the election of a Prince by the notables at Tirnova, arrange a provisional government previous to his election, and the law basis of the government after his election.

Articles thirteen to twenty one inclusively, relate to the new province called Eastern Roumelia, south of the Balkans, which is placed under the direct military and political authority of the Sultan with, however, a Christian government, and in condition of autonomous administration. The Governor is to be appointed by the Porte, with assent of the Powers, for a term of five year.

SAN FRANCISCO, July 13.—A dispatch from Pendleton, Oregon, under date of the 12th, from J. B. Keeny, says: "We have been having exciting times here, to day. The hostile Indians are in force on the reservation—Geo. Coggan, of Portland, and A. L. Bunker, of Lagrande, were shot, this afternoon, about six miles from here on the stage road. The Indians are about 150 strong. The Umatillas are undoubtedly fighting with them. The Cayuse House was pillaged and burned. Our stage station was burned at dark."

The governor's proclamation calling out volunteers in substance recites the condition of affairs, that all friendly Indians will go as hostiles whenever they find they can be successful against the whites, that all friendly Indians, with few exceptions, are midnight allies of the hostiles, and aid them in removing stolen stock and plunder, that their promises and pledges of friendship can not be relied upon, that they have misled settlers and soldiers, and have acted as spies and scouts for the hostiles. The government further cautions volunteers against doing any act not justified by custom governing modern warfare. The men will all be raised in Eastern Oregon.

BAKER CITY, OREGON, July 13.—The hostiles have made their appearance on Clover Creek, a tributary of Forth Powder river. Capt. Vivian's Company, of Egbert's Command, while scouting, yesterday, in that direction, captured seven Indians, eight squaws, and some children, and twenty head of horses, after a vigorous pursuit. Thirty or more of the hostiles escaped.

MONTREAL, July 13.—Every thing passed off quietly last night. This morning the military from the outside are being sent to their homes. The Orangemen arrested yesterday, will come up for preliminary examination at the Police Court on the 18th. The charge is for being members of an illegal society. The Orange Young Britons had a procession between 9 and 10 o'clock last night in the Western suburbs. They were not molested.

ST. PAUL, MINN., July 14.—The solicitude is becoming general regarding the condition of the wheat crop in this State. Continued rains with wind and sultry weather create fears of damage both from lodging and rust. Special dispatches to the *Pioneer Press*, from thirty points in the State, confirm these fears as to some localities where grain is lodged and rust begins to appear, but their general tenor is more hopeful than the opinion of the people here.

ST. PAUL, MINN., July 14.—A Bismarck special to the *Pioneer Press*, says the report is current there that hostile Nez Perces Indians in the Canadian territory with Sitting Bull are quietly moving across the mountains to their old home. Major Crane, of the Canadian mounted police, left Fort Walsh to try and obtain a peaceable removal of the Nez Perces to the American side.

ST. LOUIS, July 14.—Fully fifty cases of sunstroke occurred to-day, and about twenty deaths, including a number of cases of yesterday and Friday. Horses are also beginning to succumb to the heat, and a number have dropped dead, and others are disabled.

QUINCY, ILL., July 14.—Since yesterday morning there have been seven cases of sunstroke in this city five of which proved fatal. The victims were Henry Leithelm, Andy Thompson, Joseph Gilbert, John Eagan and a man named Fleming. Gilbert and Fleming were attacked to day and died in a few hours.

BURLINGTON, Iowa, July 13.—There were two fatal cases of sunstroke here to-day.

ST. LOUIS, July 13.—This has been the hottest day of the season. Nearly thirty cases of sunstroke were reported at the City Dispensary and Hospitals during the day.

Thomas Mason, who has obtained considerable reputation as a humorist writer in the St. Louis *Republican*, over the signature of "I. N. Peck," fell dead in the streets at Elston, Mo., to-day, from sunstroke.

SIDNEY, ILL., July 14.—A horrible accident occurred here yesterday. A little child three years old, named Graves, was fearfully mangled by a vicious bull and died soon after.

ROCK ISLAND, ILL., July 14.—For three days the heat has been intense, the mercury scoring from 92 to 102 degrees. Three cases of sunstroke have been reported, one of which proved fatal yesterday—that of John Lason, a farmer.

NEW YORK, July 13.—Collector Merritt and Naval Officer Burt qualified to day the Collectors bonds, amounting to $400,000, having been filed and approved at Washington.

ENJOY LIFE.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means for enjoyment. We can desire no better when in perfect health, but how often do the majority of people feel like giving it up disheartened, discouraged and worried out with disease, when there is no occasion for this feeling, as every sufferer can surely obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and Liver Complaint is the direct cause of 75 per cent of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles 10 cents. Try it.

VANDERBILT is said to have peremptorily vetoed a proposition for an increase of freight rates put forth at the Saratoga conference. He declared that the present was no time to talk of an increase, and that the business of the country could not bear it. It is regarded as settled that no rise in rates is contemplated at this time.

JNO A BARNES Chairman

This is no time for heated political discussions Let's have a rest until cooler weather Time enough for all strictly necessary conflicts after the mercury stops cavorting around among the nineties.

I move that we renominate Hayes and Field Marshal Halstead, of the Cincinnati *Commercial* but though that was some time ago, the motion has not yet received a second and the mover is on the point of swearing that he meant Grant all the time

Prof Tice says it will get hotter and hotter, until to-morrow, which will be the hottest day for a hundred years Can't somebody choke Tice? Anybody who prophesies such things deserves to be *anathema maranatha*, whether he be a true or a false prophet The mere suggestion of such a possibility ought to damn——age any man's reputation as a lover of humanity

It is very apparent that the Grant fever is spreading George William Curtis and Joe Medill are both getting ready to surrender to its attack, and when these eminent apostles of all that is "good and true and beautiful" in politics yield to the inevitable logic of events the country may safely lay to its soul the flattering unction that the worst is over

There can be no doubt as to the fact that Samuel Shelley is the first choice of the genuine greenbackers of Macon county for Congress, but Col. Taylor and Charlie Aiken and Squire Hopson are doing their best to defeat his nomination. 'Twas ever thus, the fugelmen are always trying to override the will of the people, in order to subserve their own selfish purposes

That was a pretty sly trick that the managers of the Greenback convention attempted to play on Sam Shelley They wanted to send a single delegate to the Toledo convention, who could be depended on to cast the vote of Macon county in favor of Malden Jones But Shelley blocked their little game and secured a postponement of the convention until the masses of the party who do not favor Jones can be heard from

It is a nice thing to be a member of a congressional committee these hot days The Potter committee adjourned on Saturday to meet at Atlantic City, N J, on the 23d instant At that famous seaside resort, while enjoying the delights of surf bathing and driving on the beach at the expense of the toiling and perspiring tax payers, the committee can go on in the search for frauds and in their hunt for Democratic campaign thunder. Oh, its nice

Thomas Ewing Sherman, son of Gen W T. Sherman, who has gone to England to become a Jesuit priest, wrote to a relative in St. Louis just before his departure, saying that the step he was about to take was without the approval, sanction or consent of his father, and against his wishes. The young man says that he assumes the whole responsibility of his course, as upon himself rested the duty and burden of choosing a path in life.

"Grant is our man for 1880," said an enthusiastic Republican to a distressed and discouraged looking Democrat on Saturday, "and he pokes——" but the sentence was left unfinished, for the Democrat turned black in the face and fell senseless to the sidewalk—"Sun struck, by thunder, said the innocent Republican, and so the coroner's verdict read, but truth compels us to state that the coroner's verdict was a gross perversion of the facts in the case. Just say "Grant" to the average Democrat, and, no matter how the thermometer stands, he gets "hotter'n a wolf." Oh no, it wasn't sunstroke killed that Democrat! It was the mere shadow of a coming event

A Plea for Ice Water.

A large number of newspapers, for the want of something better to do, are running crusades against ice water It is said to crack the enamel on teeth, impair digestion, and lay the foundation of cancer and catarrh of the stomach So far as the damage to the teeth is concerned, it may be said that warm food and hot drinks are more potent destroyers than ice The Esquimaux eat cold victuals and drink cold water, and they are celebrated for the soundness of their grinders It is observed that when cattle are fed on warm mashes their teeth decay with great rapidity It is the sudden transition from heat to cold which does the mischief An immoderate use of ice water is deleterious and so is almost anything else taken into the stomach without moderation But if ice water does destroy human life it should not be discouraged The country is overpopulated Wealthy people are generally addicted to the use of it As they pass away abundant room is made for the Communists and in this way social discord and a third term of Grant may be averted When we consider the fact that ice-water and two-thirds of the things that constitute our food and drink are but agents of human destruction, it is really a wonder that we live from one election to another

Heat in London.

From the London Standard June 7

For the last few days the heat not in London only but all over the country, has been intense On Wednesday last the thermometer in the Metropolitan Distrust stood at 84 degrees in the shade at 8 o'clock in the morning, and two hours later had risen to 86 degrees. At Birmingham it attained 90 degrees, the highest temperature that has been known since June of 1858, when it actually stood for the greater part of the day at 92 degrees in the shade Night has done but little to cool the atmosphere, and the severity of the change has been as remarkable as its suddenness Only a few days ago we were visited with persistent rainfall, colk, bleak winds, and a chilly atmosphere We are now, in London more especially, laboring under a heat fully as oppressive as that of the tropics, and in many respects resembling it. Kingston, in Jamaica is seldom very much hotter than was London on Wednesday last, while Kingston has the advantage of a cool breeze from the sea when the tide comes in and a cool breeze from the hills when it goes out

The New Orleans *Democrat*, the day before Jeff Davis delivered his address at Mississippi City, said

The man who has represented the noble idea of opposition to sectional and Federal centralisation still is master of all his faculties, and full of the principle that made him great and that yet will save the country Jefferson Davis will speak to morrow at Mississippi City, in answer to a deserved compliment which will be paid him by the Louisiana Division of the Army of Tennessee All of the young men of the city ought to hear him There is a lesson and an example for them in every word that will be spoken by the great man, and there are hallowed teachings in his very presence In this country and age, in the present crisis of politics, where demoralization is running riot, and the young men of the country have scarcely any standard to follow and no glaring beacon light to glide them, a word of advice from such a man as Jefferson Davis is precious, both as a lesson in practical politics and as a teaching in the highest standard of morality, which must underlie every true Republican theory

He declared to the young men that secession was right and his advice was precious Is he a [representative Southern man?

The Cleveland *Leader* tells how neatly Beaconsfield bamboozled that great International Congress, thus

Beaconsfield sat at the table of the Congress in protended consultation with the representatives of other Powers, having a private treaty with Russia in one pocket and a private treaty with Turkey in the other. When the last days of the Congress came, and the Bulgarian matter was settled, out came the concealed treaty with Turkey. The Congress was astounded. Russia wants time to think about all this France is indignant. Cyprus is taken into possession by England, who is bound there by to go to war at any time it may be necessary to protect the immense and barbarous population of Turkey in Asia The English people hardly know yet what to think. They are proud that Beaconsfield has outwitted Gortschakoff for once, but they do not know what the cost of the game will be, and they love to count the cost

CONPLETION OF THE TREATY.

The Latest From the Frontier.

THE HEATED TERM.

Remarkable Number of Sunstrokes.

London, July 13 -The government appears to be busy with the details of military and civil establishments in Cyprus Papers announce the appointment of postmasters and other officials. Gen Sir Garnet Wolsley has already under consideration a scheme of a financial company for introducing railways Arrangements are also being made for a submarine cable to Alexandria, which will give direct communication with England Among other schemes brought to the surface by the English occupation of Cyprus is the Euphrates Valley Railroad The Duke of Sutherland and others are in active communication with the government on the subject and it is stated if within a reasonable time it appears that the Anglo Turkish convention is successful it is possible the country will be asked to give a guarantee for the proposed railway

London July 13 At yesterdays sitting of the congress Bismarck moved that a supplementary conference be held next autumn, either at Constantinople or Berlin, but Lord Salisbury declared his inability to accede to any proposal interfering with the immediate submission of the papers to the English Parliament, and the motion was thrown out.

Berlin, July 13.- The congress held its last sitting to day, all plenipotentiary and other members in full dress at the opening. Proceedings begun at 2 30 and ended at 4 The treaty was signed by all the plenipotentiaries alphabetically The secretaries attended previously at 1 o'clock in the afternoon to affix plenipotentiary seals to each copy After signature Count Andrassy warmly eulogized Bismarck's presidency Bismarck thanked the plenipotentiaries for their indulgence, and the proceedings terminated with a grand court dinner this evening at Whitehall Palace The Crown Prince Frederick William congratulated the illustrious statesmen upon the realization of his hopes that the blessing of peace would crown their efforts. He declared that Germany's co-operation could be counted on for all that tends to secure and preserve this great benefit He proposed the health of the plenipotentiaries of the sovereigns of the governments who this memorable day signed the treaty of Berlin The only absentees from the banquet were Lord Beaconsfield and Prince Gortschakoff. The German semi-official press publish long peans, rejoicing and triumphing in the signing of the treaty of peace

New York, July 14 -Messrs Dun, Barlow & Co, in their last circular, report the number of business failures in the United States for the past six months of the present year at 5,825 against 4,749 for the same period in 1877 The liabilities are stated at $130,000,000 as against $99,000,000 for the same period last year The circular says "These figures are of very grave import if taken as an indication of the state of trade, for never before, in an equal period of the history of the country, have business misfortunes been so numerous, or the aggregate loss by bad debts so great," The reasons given for this exhibit are the unusually open winter, the discussion in and out of congress of the silver bill, the probability of a change in the tariff laws, and the steady decline in the prices of merchandise. These circumstances being only temporary, it is argued that it would be unfair to regard the statement as an index to the real or permanent condition of trade, and that general indications point to a better condition of things in the future

Freeport, Ill., July 13 The recent rains have done much damage along the line of the Illinois Central Railway between Freeport and Dubuque On account of a wash out four or five miles beyond Scales Mound, this side of Galena, several miles in extent, taking away a number of culverts and a tank house, railroad travel is interrupted, and will be for two or three days.

Much hay in the fields was carried away. One man, near Scales Mound, is said to have lost 10 tons, which had been cured and stacked

The Pecatonica river in the vicinity of this city has attained a size never before known perhaps at this season of the year.

Mail matter for the Northwestern section of Iowa will, on account of the railroad interruption, be somewhat delayed. So, too, will Galena suffer the same inconvenience, as the mail will be taken first to Dubuque by way of the Clinton and Dubuque railroad.

The road will soon be repaired, and probably trains will be able to get through to Dubuque by Tuesday next

Washington, June 13.—A lady living in England has made application for three valuable swords, which were formerly the property of General Twiggs, but which were captured by General Butler when he entered New Orleans during the war. These swords were sent to President Lincoln by General Butler and deposited by his successor. President Johnson, in the vaults of the Treasury Department for safe-keeping They are valued at $35,000 One of them was presented to General Twiggs by Congress, for bravery during the Mexican war. The scabbard is of pure gold, brilliantly set with diamonds When General Twiggs ran away from New Orleans, at the approach of the Union troops, he left these swords behind, but sent a letter to a young lady friend, saying that he had decided to give them to her, and for her to obtain them Soon afterwards General Twiggs died, and the lady, who now lives in England, claims that the swords are her property, and has made a formal application to the Secretary of the Treasury for them The request and claim are now being considered.

The Democratic Congressional Committee has not yet made any large preparations for the coming canvass this Fall. Members who have heretofore subscribed liberally to the general fund state that their means will be applied locally this year, in aiding to return Representatives from the close districts, which they regard as a more effective mode of campaigning than by the circulation of political documents. Members of the committee say that the hard times make it difficult to collect any money for political purposes

London, July 13 The treaty of peace contains fifty-eight articles The *Times* version, declared at Berlin as unauthentic, contains fifty seven articles, and makes no mention of two important questions, namely Dardanelles and Armenia It is probably an early copy, obtained before final revision Its first twelve articles relate to Bulgaria, which is constituted as an autonomic tributary principality under the suzerainty of the Sultan with Christian government and national militia. These articles further regulate the election of a Prince by the notables at Tirnova, arrange a provisional government previous to his election, and the law basis of the government after his election.

Articles thirteen to twenty one inclusively, relate to the new province called Eastern Roumelia, south of the Balkans, which is placed under the direct military and political authority of the Sultan with, however, a Christian government, and in condition of autonomous administration. The Governor is to be appointed by the Porte, with assent of the Powers, for a term of five year.

San Francisco, July 13 A dispatch from Pendleton, Oregon, under date of the 12th, from J. B. Keeny, says: "We have been having exciting times here, to day. The hostile Indians are in force on the reservation—Geo. Coggan, of Portland, and A. L. Bunker, of Lagrande, were shot, this afternoon, about six miles from here on the stage road The Indians are about 150 strong. The Umatillas are undoubtedly fighting with them The Cayuse House was pillaged and burned Our stage station was burned at dark"

The governor's proclamation calling out volunteers in substance recites the condition of affairs, that all friendly Indians will go as hostiles whenever they find they can be successful against the whites, that all friendly Indians, with few exceptions, are midnight allies of the hostiles, and aid them in removing stolen stock and plunder, that their promises and pledges of friendship can not be relied upon, that they have misled settlers and soldiers, and have acted as spies and scouts for the hostiles. The government further cautions volunteers against doing any act not justified by custom governing modern warfare. The men will all be raised in Eastern Oregon

Baker City, Oregon, July 13 – The hostiles have made their appearance on Clover Creek, a tributary of Forth Powder river Capt Vivian's Company, of Egbert's Command, while scouting, yesterday, in that direction, captured seven Indians, eight squaws, and some children, and twenty head of horses after a vigorous pursuit Thirty or more of the hostiles escaped

Montreal, July 13.- Every thing passed off quietly last night This morning the military from the outside are being sent to their homes The Orangemen arrested yesterday, will come up for preliminary examination at the Police Court on the 18th The charge is for being members of an illegal society The Orange Young Britons had a procession between 9 and 10 o'clock last night in the Western suburbs They were not molested

St Paul, Minn, July 14 The solicitude is becoming general regarding the condition of the wheat crop in this State. Continued rains with wind and sultry weather create fears of damage both from lodging and rust. Special dispatches to the *Pioneer Press*, from thirty points in the State, confirm these fears as to some localities where grain is lodged and rust begins to appear, but their general tenor is more hopeful than the opinion of the people here

St. Paul, Minn., July 14 -A Bismarck special to the *Pioneer Press*, says the report is current there that hostile Nez Perces Indians in the Canadian territory with Sitting Bull are quietly moving across the mountains to their old home. Major Crane, of the Canadian mounted police, left Fort Walsh to try and obtain a peaceable removal of the Nez Perces to the American side.

St. Louis, July 14 —Fully fifty cases of sunstroke occurred to day, and about twenty deaths, including a number of cases of yesterday and Friday Horses are also beginning to succumb to the heat, and a number have dropped dead, and others are disabled

Quincy, Ill., July 14 – Since yesterday morning there have been seven cases of sunstroke in this city five of which proved fatal The victims were Henry Leithelm, Andy Thompson, Joseph Olhert, John Eagan and a man named Fleming Gilbert and Fleming were attacked to day and died in a few hours

Burlington, Iowa, July 13.—There were two fatal cases of sunstroke here to-day.

St. Louis, July 13 – This has been the hottest day of the season. Nearly thirty cases of sunstroke were reported at the City Dispensary and Hospitals during the day

Thomas Mason, who has obtained considerable reputation as a humorist writer in the St. Louis *Republican* over the signature of "T. N. Peck," fell dead in the streets at Elston Mo., to-day, from sunstroke

Sidney, Ill., July 14. A horrible accident occurred here yesterday A little child three years old, named Groves, was fearfully mangled by a vicious bull and died soon after.

Rock Island, Ill., July 14 – For three days the heat has been intense, the mercury scoring from 92 to 102 degrees. Three cases of sunstroke have been reported, one of which proved fatal yesterday—that of John Lason, a farmer

New York, July 13 Collector Merritt and Naval Officer Burt qualified to day the Collectors bonds, amounting to $400,000, having been filed and approved in Washington

Corn is going was at a dollar yesterday on account of the excessive heat.

The temperance meeting at the court house on Saturday evening was well attended. The speakers were Dr. J. A. Dawson of Elwin and Mayor Post.

TRAMPS are getting quite scarce in town. Not more than a dozen or fifteen were visible by moonlight last night, and most of these lodged in Thatcher's lumber yard and vicinity.

NETTA, the now famous trotting mare owned by D. W. Brenneman, won each her race at Columbus, O., on Saturday. The time made by her in three heats was 2.29, 2.30 and 2.29.

It's too hot to work to day, boys, said Uncle Billy Montgomery on Saturday, and you may stop plowing corn and stack that wheat. This is Bill Stroll's version of the story, and we give it for what it may be worth.

It has been suggested that Samuel Shelley has got himself into trouble by attributing the paternity of tramps to congressmen. Rumor has it that there is to be a combination of congressmen formed for the purpose of bringing suit against Mr. Shelley for slander, in saying in his lecture on tramps that this class of people was made up of illegitimate children of members of congress.

It is said that the proof of a pudding is in the eating of it, and the amount of wheat raised to the acre is better known after threshing than before. Those who threshed their wheat find that it averages per acre above what they anticipated, and from all we can learn the average in the county will be from twenty five to thirty bushels.

Can't something be done to exterminate about nineteen twentieths of the dogs in Decatur? These hot nights when people are forced to keep all their windows open, in same chorus does not add much to the possibilities of getting a few winks of sleep. Shoot the dogs, or pizen them, or something. Anything to get rid of them.

Merchants had a livelier trade on Saturday last than they have realized for several Saturdays preceding. After the wheat crop is marketed business will receive a new impulse and money will be plenty.

POSTPONEMENT.—Until further notice the Cold Water Army will hold no meetings on account of the warm weather.

Y. L. R. CLUB. The members of the Young Ladies Reform Club are notified that the election of officers will be held next Saturday.

AND STILL IT MOVES. Nearly every night from one to three stock trains pass through the city eastward bound. This has been the case for nearly a week and it is understood that the shipment of stock has but just begun. The necessarily hot weather may check it up a little should it continue, but as soon as the weather gets cooler there will be an increase.

THE GREENBACK CONVENTION.

A Hot Time, and a Warm Discussion.

In Saturday's issue we gave a report of the proceedings of this body as far as the report of the committee on credentials, which was to the effect that the convention adjourned to meet on the 25th of July. The report was warmly discussed by Messrs. Shelley, Hopson, Campbell, Beadles, Lindsay and Taylor. The motion finally prevailed, and the convention was adjourned to the date named, subject to change by the county central committee, should said committee judge best.

Mr. Shelley is of the opinion that he made a grand strike in carrying the motion for an adjournment, especially as he was opposed by a very able attorney in the person of Mr. Lindsay, and also by several other influential members of the convention. To carry a point against such odds certainly argues great skill on the part of Mr. Shelley in parliamentary tactics, and affords conclusive evidence of his eminent fitness for the high position to which he aspires—that of Representative of the 14th Congressional District in the National House of Representatives.

All told there were fifteen persons who claimed a right to act in the convention, though there were only three who held credentials as regularly appointed delegates by a greenback club. It was thought that after the harvest a large convention may be convened, and strong hopes were expressed that the State might be carried for the greenback cause. All seemed to be opposed to any coalition with other political parties, and the discussion indicated a firm faith in the final triumph of the Greenback party.

Before the opening of the convention Fred Smith addressed the members in waiting and his eloquence was greeted with loud and prolonged applause.

Among other action taken by the convention was that of instructing the county central committee to correspond with the congressional district committee with a view to securing a postponement of the congressional convention, which is now called to meet at Tolono on the 25th of July.

It was also suggested to hold a grand mass meeting in the interest of the greenback cause in this city some time in August and that the Greenback candidates on the State ticket be invited to attend.

HARD TO BEAT. On Friday last twelve pairs of boots were missed from a box on board a freight train the wheeling in transit from some eastern city to St. Louis. Yesterday a fellow who gave his name as Edward Connelly was arrested on the track of the I. D. & S. Railroad, a short distance east of the city having one pair of the boots in his possession. About the same time ten pairs of the boots were found secreted under a hedge on the farm of Capt. Allen, where he had probably concealed them. He was lodged in jail for the night and this morning he was brought before Justice Peake, and not being able to give any good account as to how he came in possession of the boots found upon him, he was held for the larceny under a bond of three hundred dollars in default of which he was recommitted. The fellow seems to be a tramp, with no regular abiding place. He is now in a fair way to get a steady home for a year or more.

BAPTISM ADMINISTERED. At half after ten o'clock yesterday forenoon the ordinance of baptism was administered to two candidates at a point in the river near the Central railroad bridge, Rev. Mr. McClelland pastor of the Colored Baptist Church officiating. At six o'clock in the evening Rev. F. C. Jones, pastor of the African M. E. Church, administered the rite to two candidates at the same place. Services at both churches yesterday were of a very interesting character throughout the day.

SUNSTROKE.—On Saturday afternoon a large, mule, belonging to Mr. John McCune, who lives in the north part of the city, was feeding on the common west of the I. B. & W. Depot, when she suddenly fell from the effects of a sunstroke. A shelter was constructed over the animal, and the closest attention was paid to her, during yesterday. Last evening there were indications of improvement, and it is probable that the animal which was a valuable one will recover. Should the excessive heat continue we may expect to hear of persons being overcome with heat here as has already been the case in other places.

AN ECONOMICAL SUGGESTION TO OUR CITY COUNCIL.

MR. EDITOR.—We notice with considerable disgust, be it confessed, that the council in its wisdom and economy have decided to inflict upon this long suffering and patient community a general nuisance, under the designation of gravel sidewalks. As economy is probably the basis of said resolve, we wish to call their attention to a still more economical solution of the question, and which we doubt not will suit the public as well if not better. After having been packed down, gravel sidewalks are very good in dry weather, and under the same circumstances so is the black soil covering the surface of this section of the state, and of the two, most people prefer to walk upon the latter. Let an observer station himself in the vicinity of a gravel walk and note the wonderful unanimity of the pedestrians in walking upon the black soil, if there is any upon which they can walk. Then in the winter and spring, when freezing and thawing alternate, the gravel walks are not good or satisfactory, neither is the black soil. If then gravel possesses no greater advantages over the walks as nature made them for us, why not save even the small amount of their cost (the gravel) and do without any?—Certainly the treasury would be the gainer by it, and the public be freed from the task of tramping gravel which the council now seeks to fasten upon them. There can hardly be a question but that the city needs good sidewalks more than good streets, because financially it will be impossible for many years to have all the streets graveled, and meantime the business men will be forced at certain seasons to depend upon the sidewalks to a great extent. Can we be at all uncertain as to how they will like the gravel walks at such times? We hope the issue at the next city election will be neither temperance or political, but sidewalks or no sidewalks with the complete understanding that "gravel dumped in front of our premises does not constitute one in any sense." If the councilmen are fond of tramping gravel perhaps a still more economical method to accommodate them could be devised.

In conclusion we can only reiterate most emphatically from all such internal improvements. Good Lord deliver us.

Restful Nights, Days Free from Torture await the rheumatic sufferer who resorts to Hostetter's Stomach Bitters. That this benignant cordial and depurent is a far more reliable remedy than colchicum and other poisons used to expel the rheumatic virus from the blood is a fact that experience has satisfactorily demonstrated. It also enjoys the advantage of being unlike them perfectly safe. With many persons a rheumatic predisposition to rheumatism exists which renders them liable to its attacks after exposure in wet weather or to currents of air, changes of temperature or to cold when the body is hot. Such persons should take a wine glass or two of the Bitters as soon as possible after incurring risk from the above causes as this superb protective effectually nullifies the hurtful influence. For the functional derangements which accompany rheumatism, such as colic, spasms in the stomach, palpitation of the heart, imperfect digestion, etc., the Bitters is also a most useful remedy. It is only necessary in obstinate cases to use it with persistency.

A SINGULAR AND DANGEROUS ACCIDENT.—We learn that one day last week Mr. Jerome Cox, of Wheatland, met with quite a serious accident somewhat after the following manner. He was at the time on a load of hay or grain and by some means he fell from the top of the load to the ground. Just as he struck the ground a hayfork, which was with him on the load came after him, and one time passed through the front of his neck, inflicting an ugly wound. Information direct from the injured man to day gives his condition as being favorable to a immediate recovery he having already been out upon his place.

DEATH FROM SUNSTROKE. On Saturday last a Mr. Passwater who lives about three miles south of Cisco, went to that village with his family to do some trading. About three o'clock in the afternoon he started homeward, and when about half way he complained of giddiness and at once sank down in the bottom of his wagon and was dead in an instant. His family hurried home with him and on medical assistance being called it was pronounced a case of sunstroke.

FUNERAL SERVICES. The funeral of Mrs. A. H. Baker which took place at her husband's residence on Saturday afternoon, was largely attended by neighbors and friends. Impressive services were held by Rev. W. S. Crissey at the conclusion of which the body was taken to Greenwood Cemetery for interment, whither it was followed by sorrowing relatives and sympathizing friends.

AN ASTONISHING FACT.

A large proportion of the American people are to day suffering from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower, your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent.

THE GREENBACK CONVENTION.

A Meeting, and a Warm Discussion.

In Saturday's issue we gave a report of the proceedings of this body as far as the report of the committee on credentials, which was to the effect that the convention adjourned to meet on the 25th of July. The report was warmly discussed by Messrs. Shelley, Hopson, Campbell, Sandles, Lindsay and Taylor. The motion finally prevailed, and the convention was adjourned to the date named, subject to change by the county central committee, should said committee judge best.

Mr. Shelley is of the opinion that he made a grand strike in carrying the motion for an adjournment, especially as he was opposed by a very able attorney in the person of Mr. Lindsay, and also by several other influential members of the convention. To carry a point against such odds certainly argues great skill on the part of Mr. Shelley in parliamentary tactics, and affords conclusive evidence of his eminent fitness for the high position to which he aspires—that of Representative of the 14th Congressional District in the National House of Representatives.

All told there were fifteen persons who claimed a right to act in the convention though there were only three who held credentials as regularly appointed delegates by a greenback club. It was thought that after the harvest a large convention may be convened, and strong hopes were expressed that the State might be carried for the greenback cause. All seemed to be opposed to any coalition with other political parties, and the discussion indicated a firm faith in the final triumph of the Greenback party.

Before the opening of the convention Fred Smith addressed the members in waiting and his eloquence was greeted with loud and prolonged applause.

Among other action taken by the convention was that of instructing the county central committee to correspond with the congressional district committee with view to securing a postponement of the congressional convention, which is now called to meet at Tolono on the 25th of July.

It was also suggested to hold a grand mass meeting in the interest of the greenback cause in this city some time in August and that the Greenback candidates on the State ticket be invited to attend.

HELD TO BAIL. On Friday last twelve pairs of boots were missed from a box on board a freight train they being in transit from some eastern city to St. Louis. Yesterday a fellow who gave his name as Edward Connelly was arrested on the track of the I. D. & S. Railroad, a short distance east of the city having one pair of the boots in his possession. About the same time ten pairs of the boots were found secreted under a hedge on the farm of Capt. Allen, where he had probably concealed them. He was lodged in jail for the night and this morning he was brought before Justice Peake, and not being able to give any good account as to how he came in possession of the boots found upon him he was held for the larceny under a bond of three hundred dollars in default of which he was recommitted. The fellow seems to be a tramp, with no regular abiding place. He is now in a fair way to get a steady home for a year or more.

BAPTISM ADMINISTERED. At half after ten o'clock yesterday forenoon the ordinance of baptism was administered to two candidates at a point in the river near the Central railroad bridge. Rev. Mr. McClelland pastor of the Colored Baptist Church officiating. At six o'clock in the evening Rev. F. C. Jones pastor of the African M. E. Church, administered the rites to two candidates at the same place. Services at both churches yesterday were of a very interesting character throughout the day.

SUNSTROKE.—On Saturday afternoon a large, fine cow belonging to Mr. John McConnell who lives in the north part of the city, was feeding on the common west of the I. B. & W. Depot, when she suddenly fell from the effects of a sunstroke. A shelter was constructed over the animal and the closest attention was paid to her during yesterday. Last evening there were indications of improvement, and it is probable that the animal which was a valuable one will recover. Should the excessive heat continue we may expect to hear of persons being overcome with heat here as has already been the case in other places.

AN ECONOMICAL SUGGESTION TO OUR CITY COUNCIL.

MR. EDITOR.—We notice with considerable disgust, be it confessed that the council in its wisdom and economy have decided to inflict upon this long suffering and patient community a general nuisance, under the designation of gravel sidewalks. As economy is probably the basis of said resolve, we wish to call their attention to a still more economical solution of the question, and which we doubt not will suit the public as well if not better. After having been packed down, gravel sidewalks are very good in dry weather, and under the same circumstances so is the black soil covering the surface of this section of the state, and of the two, most people prefer to walk upon the latter. Let an observer station himself in the vicinity of a gravel walk and note the wonderful unanimity of the pedestrians in walking upon the black soil, if there is any upon which they can walk. Then in the winter and spring, when freezing and thawing alternate, the gravel walks are not good or satisfactory, neither is the black soil. If then gravel possesses no greater advantages over the walks as nature made them for us, why not save even the small amount of their cost (the gravel) and do without any?—Certainly the treasury would be the gainer by it, and the public be freed from the task of tramping gravel which the council now seeks to fasten upon them. There can hardly be a question but that the city needs good sidewalks more than good streets, because financially it will be impossible for many years to have all the streets graveled, and meantime the business men will be forced at certain seasons to depend upon the sidewalks to a great extent. Can we be at all uncertain as to how they will like the gravel walks at such times? We hope the issue at the next city election will be not her temperance or political, but sidewalks or no sidewalks with the complete understanding that "gravel" dumped in front of our premises does not constitute one in any sense. If the conundrum are fond of tramping gravel perhaps a still more economical method to accommodate them could be devised.

In conclusion we can only reiterate most emphatically from all such internal improvements. Good Lord deliver us.

TAXPAYER.

Restful Nights, Days Free from Torture await the rheumatic sufferer who resorts to Hostetter's Stomach Bitters. That this benignant cordial and depurent is a far more reliable remedy than colchicum and other poisons used to expel the rheumatic virus from the blood is a fact that experience has satisfactorily demonstrated. It also enjoys the advantage of being unlike them perfectly safe. With many persons a certain predisposition to rheumatism exists which renders them liable to its attacks after exposure in wet weather or to currents of air. Changes of temperature or to cold when the body is hot. Such persons should take a wine glass or two of the Bitters as soon as possible after incurring risk from the above causes as this superb protective effectually nullifies the hurtful influence. For the functional derangements which accompany rheumatism such as colic, spasms in the stomach, palpitation of the heart, imperfect digestion etc. the Bitters is also a most useful remedy. It is only necessary in obstinate cases to use it with persistency. [July 15 d&w6t&w1w

A SINGULAR AND DANGEROUS ACCIDENT.—We learn that one day last week Mr. Jerome Cox, of Wheatland, met with quite a serious accident somewhat after the following manner. He was at the time on a load of hay or grain and by some means he fell from the top of the load to the ground. Just as he struck the ground a hayfork, which was with him on the load came after him, and one time passed through the front of his neck, inflicting an ugly wound. Information direct from the injured man to day gives his condition as being favorable to a immediate recovery he having already been out upon his place.

DEATH FROM SUNSTROKE. On Saturday last a Mr. Passwater who lives about three miles south of Cisco, went to that village with his family to do some trading. About three o'clock in the afternoon he started homeward, and when about half way he complained of giddiness and at once sank down in the bottom of his wagon and was dead in an instant. His family hurried home with him and on medical assistance being called it was pronounced a case of sunstroke.

FUNERAL SERVICES. The funeral of Mrs. A. H. Baker which took place at her husband's residence on Saturday afternoon, was largely attended by neighbors and friends. Impressive services were held by Rev. W. S. Crissey at the conclusion of which the body was taken to Greenwood Cemetery for interment whither it was followed by sorrowing relatives and sympathizing friends.

HORSE KILLED BY HEAT. On Saturday a horse owned by Mrs. Shepherd, who lives in the west part of town was on a four horse team drawing brick to some place east of town, when it dropped dead in the harness, being overcome with heat.

HELD TO BAIL. This afternoon at one o'clock Charles Gruber charged with the robbery of William Hyatt just west of town one week ago last Friday was brought before Justice Curtis where he waived an examination and was held to bail in the sum of $500. In default of bail the prisoner was recommitted.

THINK FOR YOURSELF.

Thousands lead miserable lives, suffering from dyspepsia, a disordered stomach and liver, producing biliousness, heartburn costiveness, weakness, irregular appetite, low spirits, rising food after eating, and often ending in fatal attacks of fever. THEY KNOW THEY ARE SICK, yet get little sympathy. The unfailing remedy, which is yearly restoring thousands is DaCosta's Radical Cure. Sold by Dr. A. J. Stoner.

A 25c. bottle will convince you of its merits. Don't delay another hour after reading this, but go and get a bottle and your relief is as certain as you live. Will you do it or will you continue to suffer? Think for yourself.

AN ASTONISHING FACT.

A large proportion of the American people are to day suffering from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower, your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent.

WHY THE HAIR FALLS OUT.

AND HOW TO RESTORE ITS STRENGTH AND COLOR. Each hair is secreted by a little vessel or gland the latter being nourished by a small blood vessel. As long as these blood vessels furnish sufficient encouragement the hair will continue to grow, but if from disease or other cause they become impoverished or closed the hair will necessarily become dry and fall off. It is here the wonderful virtues of London Hair Color Restorer are manifested. Its peculiar property is to immediately restore the scalp to a healthy condition, and further growth of hair in its natural youthful color is sure to be the result. Apart from its tonic and coloring qualities London Hair Color Restorer is the most cleanly and lasting of all hair dressings, making it indispensable to the toilet of every lady and gentleman. TUTT'S PILLS.

For ten years TUTT'S PILLS have been the recognized Standard Family Medicine in the Atlantic States. Scarcely a family can be found from MAINE to MEXICO that does not use them. It is now proposed to make their virtues known in the WEST.

A single trial will Establish their Merits.

You ask, Do they Cure everything?

CATARRH

A PHYSICIAN'S TESTIMONY.

10 Years a Physician. 12 Years a Sufferer. Tried Regular Remedies. Tried Patent Medicines. Permanently cured by

SANFORD'S RADICAL CURE.

MESSRS. WEEKS & POTTER,—Sirs: I have been afflicted with the Catarrh for thirty years and have been a sufferer myself for twelve years with Catarrh in the most pronounced form and have tried almost everything in the treatment of it with no permanent relief, until I tried your Sanford's Radical Cure, which in short time entirely cured me, and I have not been troubled with it since. I feel that I am entirely cured, and am happy to say that your Radical Cure is certainly a happy combination for the cure of that most unpleasant and dangerous of diseases.

Yours respectfully,
D. W. GRAY, M. D.
Office D. W. Gray & Son Physicians and Druggists, Muscatine, Iowa.

Muscatine, Iowa, March 26, 1877.

"The value of this remedy must not be overlooked in the case of those

SYMPATHETIC DISEASES,

Affections of the Eye, Ear, Throat, Lungs and Bronchial Tubes will in many cases accompany a severe case of Catarrh. The inflamed and diseased tissue, but the mucous membrane in the case of all the sores, scrofulous and until the system has been thoroughly purified under the influence of the RADICAL CURE, perfect freedom from them cannot be reasonably expected.

It is but three years since SANFORD'S RADICAL CURE was placed before the public but in that short time it has found its way from Maine to California, and it can truthfully be acknowledged by druggists and physicians to be the most successful preparation for the thorough treatment of Catarrh ever compounded. It has will be doomed of more importance as it is brought within the reach of most Catarrh sufferers. Over five years' use of different remedies for Catarrh have in no instance failed, and to day with one of two exceptions their names cannot be recalled by the most enforced druggist. After trying many remedies, and being a very sick man, but, unless the remedy possesses unlimited specific, medical properties, it is absolutely certain to fail into merited obscurity.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price $1.00. Sold by all wholesale and retail druggists and dealers throughout the United States and Canada, under WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

How to Preserve Ice.

During illness ice is generally needed in the sick room. The following method of preserving it is highly recommended, and is certainly worth trying: Cut a piece of flannel about nine inches square, and secure it by a ligature round the mouth of an ordinary tumbler, so as to leave a cup-shaped depression of flannel within the tumbler, to about half its depth. In the flannel cup so constructed pieces of ice may be preserved many hours, all the longer if a piece of flannel from four or five inches square be used as a loose cover on the ice cup. Cheap flannel, with comparatively open meshes, is preferable, as the water easily drains through it and the ice is thus kept quite dry. When good flannel with close texture is employed, a small hole must be made in the bottom of the flannel cup, otherwise it holds the water, and facilitates the melting of the ice. Placed in a cup of this kind, two ounces of ice has been known to last for nine or ten hours.

The Jews in Vienna.

There is probably no city in all Europe or indeed in Asia or America, which contains so many and so influential Jews as Vienna. They are said to number not far from 200,000, and they hold many of the most prominent places in the community. In commerce they are very powerful, the trade of the capital being largely in their hands. Many of the leading firms are Jewish, and the banking business is almost entirely controlled by Jews. The press is for the most part written, managed and directed by Jews, many of the museums (Vienna is nothing if not musical) are Jews, the restaurants and inns are kept by Jews, the richest men are Jews and the prettiest women are Jewesses.

WHAT THE GENERAL SAID!

A noted General being asked by some of his friends how he liked Texas replied "If I was obliged to choose between Hell and Texas I would choose the former." The above saying is verified every day by parties moving from the North, East and South, and as they cannot decide exactly as to the existence of the former, they certainly avoid Texas, and like sensible, industrious people, seek a productive country, such as Missouri, Kansas, Colorado, Nebraska and the Far West. Reader, are you contemplating a trip to such a country on business or pleasure? If so, select the line having the least change of cars and best accommodations. The Old Reliable Hannibal & St. Joseph R R (the Pioneer line west of the Mississippi River) offers you through Day Coaches and Pullman Palace Sleeping Cars from Chicago, Ills. Toledo, Ohio, and Indianapolis, Indiana to the Missouri River without change. Tourist and land seekers round trip excursion tickets on sale by the popular route at all Eastern Ticket Offices. TO THE PUBLIC.

THE

"REPUBLICAN"

Is the oldest paper in Macon Co., and has

A Larger Circulation

Than all the other papers combined.

THE DAILY REPUBLICAN,

Now in the sixth Year of its existence, (long enough to be an EXPERIMENT) and has come to be regarded as

One of the Permanent Institutions

of Decatur. Its circulation is larger than that of any other daily paper ever published in Decatur and is not of the fluctuating sort which characterizes most new papers that are taken a week or two on trial and then dropped, but on the contrary, its readers are in a large degree made up of the very best class of our citizens who subscribe and pay for the paper.

BY THE YEAR.

A glance at the advertising columns will show that this fact is realized by our patrons, who are among the oldest and best of our business men, and who make their contracts for advertising the year the cheapest class of customers.

(BY THE YEAR)

Thereby testifying their faith in the permanency of the REPUBLICAN.

Is now over ten years since the

Weekly Republican

Has established, and in all that time, for more than a year, never missed an issue, nor been behindhand in its day of publication. Its success has been

SIMPLY UNPARALLELED

and its circulation was never organized or even approached, by any other newspaper published in Decatur. Its circulation today is

More than Three Times

as large as that of either of the old opponents, and well understood and appreciated by advertisers.

The reasons for the marked degree of success which has attended the history of the REPUBLICAN are no mystery to those familiar with its publishers. It has ever been to furnish to its readers such a newspaper as could be safely read in the family circle, a newspaper bearing upon its pages the newest of the day in literature, as far as possible to unobtrusive, a paper that should be the organ of no party, clique, or cabal, in short, a newspaper. They have not fallen into the too common error of imagining that the world was suffering and starving to learn their opinions, nor have they attempted to arrogate to themselves the leadership of every movement that engaged the attention of the public for the time being. Neither have they attempted, during political campaigns, to control the action of conventions, or to dictate the nomination of candidates. In a word, they have honestly endeavored to make the REPUBLICAN an impartial observer and recorder of passing events. The fact that the people have so emphatically endorsed this line of policy is the strongest argument that could be offered for its continuance.
